Objective: During this internship, I want to gain exposure to a working environment for the purpose of understanding daily job operations and gain knowledge of how to utilize my education into practice. Also, I want to use this opportunity to help me develop or enhanced my skills for future job opportunities.

Skills: I'm currently a full-time, senior college student. I learned two coding languages: Java from high school and C++ from university. Although I don't have work experience yet, I'm a fast learner, willing to learn more about the job assignment and ready to adapt on a given task. I'm a well-organized person and with that, I'll make sure that the work will be done on passionately manners.

Education: **Bachelor of Science, Computer Science**
California State University Fullerton
800 N. State College Blvd. Fullerton, CA 92831
2021 – present, senior

Completed Classes:

Object-Oriented Programming	Data Structures
Computer Organization and Assembly Language	Java Programming
Compilers and Languages	File Structures and Database
